

Theis Peter Hansen

European Patent Attorney, CDPA

MSc Engineering, Industrial PhD

Theis has in-depth technical expertise within the field of optics, especially fiber optics. Furthermore, he has expertise with inventions within several fields, such as electronics, nanotechnology, medico, oil production and exploration, and cleantech.

Theis has experience with performing patent searches and patentability evaluations, drafting and prosecution of patent applications in jurisdictions across the globe. Furthermore, he has experience with oppositions before the European Patent Office.

When finishing his industrial Ph.D. in fiber optics from DTU, Theis continued working there as a scientist before he joined the world of IPR in 2007. Theis has worked as a patent consultant at two different patent consultancies before joining Plougmann Vingtoft.

Theis Peter Hansen works with IPR within the following industries:

- > Telecommunication
- > Software
- > Oil and Gas
- > Laser and Optics
- > Nanotechnology
- > Medical technology
- > Cleantech
